

# Making the Most of Your Waste

At Wellington Waste we're always on the lookout for new ways to accelerate our journey to become zero to landfill. So we've come up with some ideas for how you can support the circular economy with your own waste.

## Bricks, Building Rubble & Soil

Reuse for driveways, garden renovations, landscaping or advertise on selling sites

## White Goods

If still usable, these can be sold on or donated to charity or furniture reuse companies

## Garden Waste

Compost at home and turn it into soil for the garden

## Furniture

Sell on or donate to a local furniture reuse company

## Paint

Donate to a neighbour, local community group, or sell online

## Power Tools

Take broken tools to your local repair shop, sell or donate working power tools.

## Wood

Sell or donate wood towards other's DIY projects

**If you need to dispose of your DIY waste, we encourage you to use council recycling or other schemes to get rid of your hazardous waste responsibly.**
